LeFiell Company

LeFiell Company is a precision engineering, fabricating and manufacturing company based in Reno, Nevada. The company is a leading provider and manufacturer of meat processing equipment ranging from slaughterhouse equipment to overhead rail systems. LeFiell's overhead rail systems are also used in the laundry, manufacturing and industrial painting trades.

LeFiell Company creates innovative manufacturing solutions

History

LeFiell Company started during the rebuilding of San Francisco following the 1906 earthquake. The company established itself as the top manufacturer and supplier of meat processing equipment and overhead rail systems. Through the 20th and into the 21st centuries, LeFiell continues to be an industry leader. In 1994, LeFiell moved to Reno and continues to supply the meat processing and material handling industries while constantly developing new markets, applications and strategic partnerships.
